4. Send your smart chain BNB into this wallet

If you have BNB you need to convert this into smart chain to be able to swap it for ShibaCash.

5. Go to PancakeSwap

Connect your wallet to PancakeSwap.

6. Copy the ShibaCash token address

Use the below contract address:

0x7e4e3ba4675c39ff2863073e171b0a2e93a592e0

Make sure BNB is in the top box. Tap 'select currency' in the bottom box and paste the above address into it.

7. Set the slippage to 12%

This is done by clicking on the icon located to the right of the word 'Exchange' (three lines on top of each other).

8. Enter a BNB amount and hit swap

Remember to have enough BNB left to use for gas fees.

Once the transaction has been cleared, you should have ShibaCash in your MetaMask wallet
